

## WINE, BEER & DRINKS

Our carefully chosen  
low-intervention, natural and biodynamic wines

**All of our wines are produced in a more natural and sustainable way than conventional wines.**

Natural, or living wine is wine as it was always made, before wine became a mass-market global commodity; made with the addition of chemical pesticides and herbicides, commercial yeasts and chemicals, including the infamous sulphites, to create safe, reliable wine that tastes the same year after year, bottle after bottle, despite fluctuations in weather and climate.

We're not here for 'safe and reliable' and we don't believe in bland. Instead we believe in real grapes and the wonderful wines they can produce when allowed to become an expression of the place - or '*terroir*' - in which they grow.

We focus on wines from grapes and winemakers that go their own way: viticulture that encourages biodiversity of soil and wildlife, with (at minimum) organic practices in the field. These wines we love are fermented using natural and indigenous yeasts and are lovingly crafted in the cellar with minimum intervention and much lower, or no, sulphites.

Nothing's perfect, winemaking done properly is a tough business. Our list is not dogmatic, it's a celebration of some of our favourite wines made by winemakers that we respect for their commitment to wine that is truly alive. Just like the wines inside the bottles our list will change and evolve with time, as we taste and learn more about these wild wines and the wild people that make them. We hope you enjoy those that we have discovered so far...

**Ciello Bianco – our lovely house white** 22

*Cantina Rallo, Catarratto, 2018, Sicily, Italy, 12.5%*

Cloudy, funky and just a little bit wild. Unfiltered grapes that are dry and loud with bags of character. Drink young and carefree!

**Frentano Trebbiano** 24

*Cantina Frentana, Trebbiano, 2018, Abruzzo, Italy, 12%*

Crisp and citrus fresh with orchard fruit. Grown in one of Abruzzo's original cooperatives dating back to the 60s, these grapes are light and bright.

**Good Hope Chenin** 25

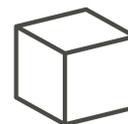

*Winery of Good Hope, Chenin, 2017, Stellenbosch, South Africa, 12%*

A perfectly balanced dry Chenin with subtle hints of cream, great value wine made in support of the local community. Good grapes; good karma.

**Loire Sauvignon Blanc (bag in box)** 27

*Guy Allion, Sauvignon, 2017 Loire, France, 12%*

With green apples and citrus notes aplenty, this fresh and dry Sauvignon from Touraine is a classic example from our favourite region. Simple, clean, beautiful.

**Vinho Castelo Rodrigo** 28

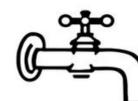

*Castelo Rodrigo, Siria/Fonte Cal/Malvasia, 2019, Beira, Portugal, 13%*

Bone dry, apple crisp and sea breeze fresh, with a twist of citrus, a splash of Portuguese sun and a finish that likes to linger.

**Bonhomme Chenin (on tap)** 29

*Nicolas Reau, Chenin, 2017, Loire, France, 12.5%*

Light sherry notes give way to apples, pears, summer pollen and a rich, farmy earthiness in this tantalising Chenin. Our favourite wine region, favourite grape and one of our fave winemakers: a taste of Loire terroir, on tap.

**Vinho Verde** 30

*Márcio Lopes, Loureiro, 2018, Vinho Verde, Portugal, 11.5%*

Fresh, vibrant and aromatic with a light refreshing spritz. These grapes grown with the influence of the cool Atlantic ocean are the perfect pairing for seaside gazing and seafood grazing.

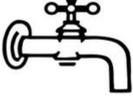

**Muscadet Les 2 Terres (volcanic)** 30

*Domaine de Cognettes, Melon de Bourgogne, 2017, Loire, France, 12%*

Two brothers working two soils – 2 Terres – granite and gabbro, to produce this saline and mineral Muscadet that's rich, rounded and effortlessly elegant. Bring on the oysters!

- Serbian Kovidinka (no added sulphur dioxide) (skin contact/orange)** 31  
*Maurer Oszkar, Kovidinka, 2018, Szeremseg, Serbia, 10.5%*  
 This crisp, light and fresh orange wine is made just south of the border with Hungary, where winemaker Maurer farms his 6 acres by horse plough. Vibrant amber in colour and pleasingly tart, it's a winner.
- Pebble Dew (biodynamic methods)** 33  
*Pebble Dew, Sauvignon Blanc, 2018, Marlborough, New Zealand, 13.5%*  
 Pear, peach and a spritz of citrus and grapefruit come together in this fresh take on a classic New Zealand Sauvignon. Full bodied and floral with plenty of sass. Biodynamic sass, of course...
- Baglio Bianco (skin contact/orange)** 34  
*Cantina Rallo, Catarratto, 2018, Sicily, Italy, 11%*  
 Embrace island life with this light and bright skin contact wine from sunny Sicily. Cloudy, robust, saline, herbal and aromatic with citrus notes - a refreshing but complex number that we could drink all day.
- Flower & The Bee** 35  
*Coto de Gomariz, Treixadura, 2018, Ribeiro, Spain, 13.5%*  
 Rich fruit flavours and a creamy full finish, this Spanish icon is as perfect as its name; gorgeous but to be taken seriously. Dry, full, fancy - not just a pretty face.
- Arndorfer Grüner Veltliner** 35  
*Martin & Anna Arndorfer, Grüner Veltliner 2018, Kamptal, Austria, 12%*  
 Vibrant, spicy, aromatic and herbal, this slightly cloudy unfiltered white is intriguing, complex, delicious and gluggable in equal measure. An Austrian hillside in a glass (with singing aplenty!).
- Holly's Garden (biodynamic methods) (volcanic)** 36  
*Holly's Garden, Pinot Gris, 2018, Victoria, Australia, 12.5%*  
 Apples, spice and all things nice make this gorgeous off-dry wine a liquid love affair. Packing a dreamy creamy quality balanced with tangerine acidity and perfect roundness.
- Dajoar Riesling** 36  
*Andreas Bender, Riesling, 2018, Mosel, Germany, 11%*  
 Classic, elegant and indulgent. This slightly sweet but incredibly balanced wine is honey-scented with dreamy ripe apricot flavours. Off dry and on point.
- La Dilettante Vouvray (biodynamic methods)** 37  
*Catherine Breton, Chenin, 2018, Loire, France 13.5%*  
 One of our wine heroes, Catherine Breton, sans husband Pierre, drives this solo side project humbly named 'the dabbler'. Made from 40-year-old vines, this is a youthful, creamy, rich and truthful expression of Loire Chenin at its very best. Balanced and delectable, we would happily drink this everyday.

- Tillingham White East Sussex** 37  
*Tillingham, Müller Thurgau/Ortega/Bacchus/Chardonnay/Schönburger, 2018, Peasmarsh, East Sussex, 10.5%*  
 Crisp, dry and aromatic with smoky stone fruit flavours and apple aromas, this is a rich and mineral local white that shows off the full effect of our Chablis-esque chalky soil.
- 
- 2Naturkinder Vater & Sohn Müller-Thurgau Trocken** 37  
*Vater & Sohn, Müller-Thurgau, 2018, Repperndorf, Germany 11%*  
 Grapefruit, green apple and elderflower mingle against a rich mineral background in this crisp and clean yet complex, aromatic and spritzy wine made as a joint project between Michael Voelker of 2Naturkinder and his father.
- La Fanfarria Blanco (biodynamic methods) (no added sulphur dioxide)** 37  
*Dominio del Urogallo, Albarin/Albillo, 2017, Asturias, Spain, 13%*  
 Savoury and searingly fresh with a stoney minerality and a saline finish - plus just a dollop of round creaminess. Pure and pleasing. The label is dedicated to the 'robotic' local wine establishment that these growers are taking on, and by the taste of it we'd say they're winning.
- Tuscan Tutti (1 litre) (skin contact/orange)** 37.5  
*Antonio Camillo, Trebbiano/Malvasia, 2019, Tuscany. Italy, 13%*  
 Big Bottle, big Tuscan heart. This simple but special wine will carry you right to the Italian countryside. Just like the food there, it's real and rustic yet perfectly balanced and bright. You can see why they do it by the litre - you won't want to stop.
- Petit Chablis** 38  
*Gérard Tremblay, Chardonnay, 2018, Burgundy, France, 12.5%*  
 Full of fresh citrus notes and hints of grapefruit peel, this unoaked Chardonnay is everything you want from this classic region. Rich and light with bags of elegance and a generous hit of cream.
- Les Saveurs (biodynamic methods)** 38.5  
*Christian Binner, field blend, 2018, Alsace, France, 12%*  
 An unfiltered blend of native white grapes, led by Riesling with Pinot Blanc and Gewurztraminer in the mix among others, this cloudy, peachy, mineral wine is a refreshing beauty, understated but intensely delicious. Excellent value from a natural wine legend - look out for more of Christian's wines on this list.
- Attention Chenin Méchant** 40  
*Nicolas Reau, Chenin, 2018, Loire, France, 12%*  
 Another Chenin, another stunner - but something very different from Nicolas Reau's on tap grapes. An elevated, light and expressive wine with citrus and apple flavours, some creaminess and racing acidity. Beware of the Chenin, the label says, and you can see why - addictive, salivating stuff.

- Zarate Albariño (biodynamic methods)** 40  
*Eulogio Pomares, Albariño, 2018, Rias Baixas, Galicia, Spain, 13%*  
 A truly stand-out version of this Galician classic, this Albariño is made from 30 to 60 year-old vines with only low quantities produced, creating a very pure expression of this good time grape - saline, fresh, precise and clean. Sunny sea air in a glass.
- MACBeu (biodynamic methods) (no added sulphur dioxide)** 40  
*Clot de les Soleres, Xarel·lo, 2018, Catalonia, 13.5%*  
 Made from grapes enclosed by wild forests on all sides, this light, crisp and notably pure wine is a reflection of simple, wild viticulture with elegant floral notes and ripe stone fruit.
- Fossil Branco** 41  
*Vale da Capucha, Gouveio/Fernão Pires/Arinto, Lisboa, Portugal, 12.5%*  
 Dry, crisp, creamy and mineral with a citrus twist and a delicate touch of grassiness, this is Portuguese Chablis and a stunner in the sunshine. Beauty, balance and elegance all round.
- Benimaquia Tinajas (skin contact/orange)** 41  
*Bodegas Bernabe, Moscatel, 2016, Spain, 12.5%*  
 Moscatel's trademark floral, honeysuckle flavours are out in force in this absolutely delicious deep orange wine, where full-on tannins are balanced by a searingly fresh acidity, a touch of spice and some pleasing salinity from the Alicante shores.
- Sancerre** 42  
*Domaine Gerard Fiou, Sauvignon Blanc, 2018, Loire, France, 12.5%*  
 Ever the picture of style and sophistication, fresh green fruits meet high minerality to create this timeless classic. A stunner from a stunning region.
- Horsmonden Dry East Sussex** 43  
*Will Davenport, Bacchus, Ortega, Faber, Siegerrebe, Huxelrebe, 2018, Rotherfield, East Sussex, 11.5%*  
 Dried citrus, honey, elderflower and toasted hazelnuts mingle in this elegant and charming, super-clean Sussex white that keeps giving. A treat to have down the road.
- Vino di Sasso Robola** 43.5  
*Scalvos, Robola, 2017, Kefalonia, Greece 12.5%*  
 A lively and wild creamy and mineral-rich wine from Greece's Ionian isle that exudes salty sea and sunny skies. Fruity, chalky and citrusy, with layers of character and a boisterousness that would give Captain Corelli a run for his mandolin.

**Tripoz Bourgogne Blanc (biodynamic methods)**

*Céline et Laurent Tripoz, Chardonnay, 2018, Macon-Loché, Burgundy, 13%*  
 Classic yet contemporary, sexy and superb - this Bourgogne Blanc is made with minimal intervention but maximum care. Searingly fresh, super creamy, clean and classy with plenty of punch. A Chardonnay lover's biodynamic booty call.

44

**Slobodne Jantara (skin contact/orange)**

*Slobodne, Sauvignon Blanc/Hlohovec, Slovakia, 2017, 12%*  
 The word slobodne means 'free', referencing the relatively recent freedom of Slovakia. Siblings Agnes and Katrina ditched their city jobs in Bratislava and returned to their family farm, partners in tow, and began making experimental natural wines. Bold flavours of tangerine, elderflower and quince create a wine with flavours as enthralling as its history.

44

**Miss Terre Muscadet (very low sulphites)**

*De la Sénéchalière, Melon de Bourgogne, 2018, Loire, France, 13%*  
 A Muscadet to rival all others. Bright, vibrant, earthy and creamy, this elegant beauty is aged on its lees for 9 months, and you can tell. Perfectly rich and intense - a saline sensation.

44

**Uberrima Palomino (oxidative)**

*Bodegas Cota 45, Palomino, 2018, Jerez, Spain, 11%*  
 Winemaker Ramiro Ibáñez Espinar looks to the past and the future with his pioneering wines that use age-old techniques and heritage varietals in modern ways. He also breaks all the rules by making what are effectively unfortified sherry wines. This is an unfortified manzanilla - salty, acidic, rich and convivial. It's just less strong, so you'll want to drink more.

45

**Metamorphika Chenin (very low sulphites) (amphora)**

*Costador, Chenin, 2016, Conca de Barberà, Catalunya, 13.5%*

*Jane Okruashvili, Kisi, 2017, Kakheti, Georgia, 14%*

- Tillingham Pinot Blanc East Sussex** 47  
*Tillingham, Pinot Blanc, 2018, East Sussex, England, 12%*  
 A Pinot Blanc from Sussex? Why not. Another beauty from the team at Tillingham. Autumn pear and crisp apple, a spritz of lemon and a glorious freshness that gives way to a mineral, slightly nutty backbone. Perfect paired with our abundant local produce.
- Si Rose (biodynamic) (no added sulphur dioxide) (skin contact/orange)** 48  
*Christian Binner, Pinot Gris/Gewurztraminer, 2016/7, Alsace, 14%*  
 Made from a blend of Pinot Gris and Gewurtz, which both lend a pink hue when rested on skins, and a 50/50 blend of two years' vintages, the name of this mad-cap and deliciously tannic wine from Binner references both its rosé colour and (more darkly) cirrhosis of the liver. Nothing added, nothing lost.
- Foudre a Canon Savagnin (no added sulphur dioxide) (biodynamic methods)** 49  
*Domaine de la Borde, Savagnin, 2018, Pupillin, Jura, France, 12.5%*

 Gorgeous grapes from the former owner of one of our favourite Parisian wine bars, Café de la Nouvelle Mairie, who decided to make the wine he wanted to drink. He succeeded in making this elegant, robust Chenin - bursting with flavours of melon and tropical fruit met with notes of smoke and salty minerality. - Macération (biodynamic) (no added sulphur dioxide) (skin contact/orange)** 52  
*Pierre Frick, Pinot Gris, 2017, Alsace, France, 13.5%*  
 Non-binary wine. This beauty drinks like a red, is made like an orange, with white grapes and a rosé pink hue. Robust but light with grape stem flavours, you could think it was a Pinot Noir rather than a Pinot Gris. A fine reminder never to judge a grape by its colour.

*Les Cailloux de Paradis, Sauvignon Blanc, 2017, Loire, France 12.8%*

- 3 Terres Chenin (biodynamic, no added sulphur)** 81  
*Domaine des Roches Neuves, Chenin, 2013, Loire, France, 12%*  
 This wine is made by what we like to think of as a Loire super group. The observant among you will know that the Loire is our favourite wine region, and two of its most legendary natural winemakers crop up a fair bit on our list: Nicolas Reau (he makes our tap chenin as well as many more) and Thierry Germain (Saumur-Champigny and others). The two have teamed up with another great winemaker, Michel Chevré, who worked with Thierry, to create this epic Chenin. The wine is made with three different lots of grapes grown in each of the winemakers vineyards, and aged in a single 400-litre Italian amphora that Thierry buries in his deep cellars for 8 months. It is then pressed to an old barrel where it remains on it's lees for 12 months before being bottled. No sulphur is used at any time. Expect high acidity, tropical notes and plenty of cream. Chenin at its very best.

*Domaine de la Zouina, Caladoc/Mourvedre/Marselan, 2019, Meknès, Morocco, 12.5%*  
 Grown at high-altitude, you'd guess this straw pale rosé was from southern France but it's actually from Meknès in central Morocco, not far from Fes. Delicate and elegant with great minerality, it's easy drinking on its own, or a perfect match for aromatics and spice.
- L'apostrophe Rosé de Provence** **34**  
*Domaine Les Terre Promises, Grenache / Carignan / Cinsault, 2017, Provence, France, 13.5%*

Just a stone's throw from Beaujolais and sharing many of the famed region's characteristics, but with a sprinkle of that earthy Loire magic that moves our souls. A fuller Gamay than some, but no less drinkable for it.
- Uncondemned Medieval** 36  
*Quinta do Montalto, FernaoPires/Trincadeira, 2018, Lisbon, Portugal, 14%*  
 This light and intriguing Portuguese red is made from half red grapes (Trincadeira) and half white (Fernao Pires) from vines 120-150 years old which were due to be condemned due to their owner's age before this winemaker took them on. The other part of its name comes from his 'medieval' approach to winemaking - nothing added, nothing taken away. Real natural wine. Refreshing, juicy and lively, with a touch of spice, gentle tannins and a lovely spritz from the white grapes. Easy drinking, but seriously interesting.

- Weninger Blaufränkisch** 36

 Created out of the shared passion of two Italian natural winemakers, this Puglian beauty made using spontaneous alcoholic fermentation without temperature control is grassy, herbaceous and a little wacky on the nose, but with excellent balance, mouthfeel and acidity to match. *Pinot Noir/Chardonnay/Pinot Meunier, 2018, Peasmarch, 11.5%*  
 Tillingham but this time with this delicate Col Fondo. Soft, small playful bubbles creamy and biscuity with good acidity and a dry finish. Classic Col Fondo flavours, but we're in East Sussex: elegant pioneering grapes.
- Davenport Limney East Sussex** 53  
*Davenport, Chardonnay/Pinot Noir/Pinot Meunier, 2014, Rotherfield*  
 If you are after something trad and sparkling that shows off the terroir of East Sussex, then this is our pick. Yeasty, youthful and refined, this is proper grown up bubbles for those wanting to indulge in some serious celebrations.
- Val Frison Goustan blanc de noirs** 66

*Valérie Frison, Pinot Noir, NV, Champagne, France*

Champagne is not a natural go-to for us – we're more Pet Nat politicians than Champagne socialists – until this. Val Frison's delicious 100% Pinot Noir, no dosage, fermented in Chablis barrels; ripe red berries, wild herbs and elegant fine bubbles with incredible texture and length.

**Monbazillac Jour de Fruit**

*Domaine de l'Ancienne Cure, Semillon/Muscadelle, Jurançon, France, 12%*  
Honeysuckle, pear and ripe apricot abound in this luscious, golden dessert wine. Its unctuous sweetness is balanced by good acidity, making it honey sweet but not sickly.

**70ml glass: 6.5 | 375ml bottle: 24**

**Moscatel Dorado Sherry**

*Bodegas Cesar Florido, Muscat, NV, Jerez, Spain, 17.5%*  
A Farmyard favourite, this sticky sweet sherry spends two years in chestnut barrels which gives it a lovely nutty flavour, along with hints of orange blossom and caramel. A deliciously different way to end a meal.

# We serve natural, biodynamic & low intervention wines...

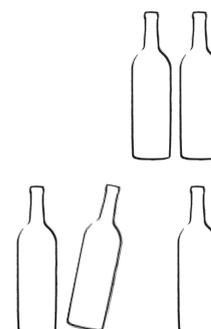

## what is natural wine?

There is no exact definition for Natural Wine, and we don't like to be dogmatic. Broadly speaking these are wines farmed using at minimum organic methods and made without being altered artificially in the cellar. Wild or native yeasts are used in place of synthetic off-the-shelf yeasts; the result is an unfiltered, unfiltered, living wine with character and personality - sometimes with cloudiness and a slight effervescence.

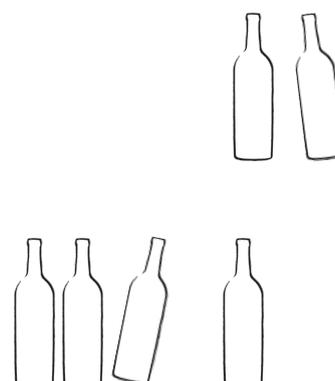

## what about biodynamic?

The idea behind biodynamics is that everything in the universe is interconnected, including the moon, planets and stars. Biodynamic farming is completely organic, but also follows a special lunar calendar. Additionally, biodynamic wine allows no 'manufactured' additions, even organic ones. For example, commercial yeast won't be added to the wine, instead harnessing naturally occurring yeasts from the grapes and winery - the ultimate expression of **terroir**. Farmers using Biodynamic methods are highlighted on our list.

### The issue of... *sulphites*

Sulphur dioxide (SO<sub>2</sub>) is used by many winemakers to preserve wine and prevent oxidation. Natural wine has much lower Sulphur Dioxide (sulphites still occur naturally in wine) added, some have none at all (these are labelled on our list). Apart from the fact that the idea of pumping chemicals into your wine is a bit unpleasant, the use of SO<sub>2</sub> has been linked to allergic reactions, asthma and much worse hangovers.

# Green(er) Wine

**You wouldn't want to eat badly reared meat or unsustainable fish, so why drink wine that is full of chemicals and bad for the planet?**

At Farmyard our wines are chosen with ethics and sustainability in mind. All wine has an impact on the environment, but, just as with food, there are ways to drink greener..

## How can wine be more sustainable?

Working out whether a wine is sustainable or not is a complicated business, but a few of the key principles to consider are whether farming methods are organic, water and energy efficiency in the vineyard and winery, and whether winery workers are paid fairly and treated well. Transportation is also an important issue, which is why the majority of our wines are from Europe (and Sussex and Kent). We believe a few treats are worth bringing in from further afield, though

## last but not least... we love it

At the end of the day, what is the point in natural, sustainable or biodynamic wine if it doesn't taste great. For us, natural wine is exciting and expressive on the palate, it is wine with a story to tell and a direct connection to its roots. We believe that what's in your glass should reflect its natural environment - grapes and growers going their own way, a true taste of terroir and its people.

### **naturally vegan + vegetarian**

The reason that not all wine is vegetarian or vegan is the way that it is clarified through a process known as 'fining'. Common agents used for this are casein (milk protein), albumin (egg whites), gelatin (animal protein) and isinglass (fish bladder). All of the wine on this list is suitable for vegans.
